

Ecumenical Community Services receives an exceptional donation from Saint Lambert International High School – the small school with a big heart!

Earlier this year, Ecumenical Community Services received a cheque in the amount of \$5,130 from Saint Lambert International High School. This is an extraordinary contribution to our organization, made by a small school with an enrolment of under 400. This impressive amount was raised by students and staff who participated in many fund-raising activities which ran throughout the fall, leading up to the Christmas season. Activities such as Leaf-Raking for neighbors, Staff vs Student volleyball game, Dawn till Dusk badminton court rentals, bake sale (which alone raised over \$1,000) and many other events encouraged the students to get involved and help those who are less fortunate. As well as the monetary contribution, the school also collected non-perishable food items, which will help our food bank operate in the months to come.

The generosity of this school is nothing new. Saint Lambert International has been a major contributor to ECS for over 30 years! They even managed to raise over \$2,300 in 2020 – during Covid - when most learning was done on line and students weren't even in the building. Over the past 8 years alone, SLI has donated more than \$28,600 to ECS!

ECS is vital to the communities of Saint Lambert and Ville Lemoyne, offering food bank services and occasional financial aid. This past holiday season, we delivered over 175 Christmas Basket Vouchers to individuals and families in our communities. We count on, and are grateful for the support of individuals, groups, companies and schools to fulfill our mission.

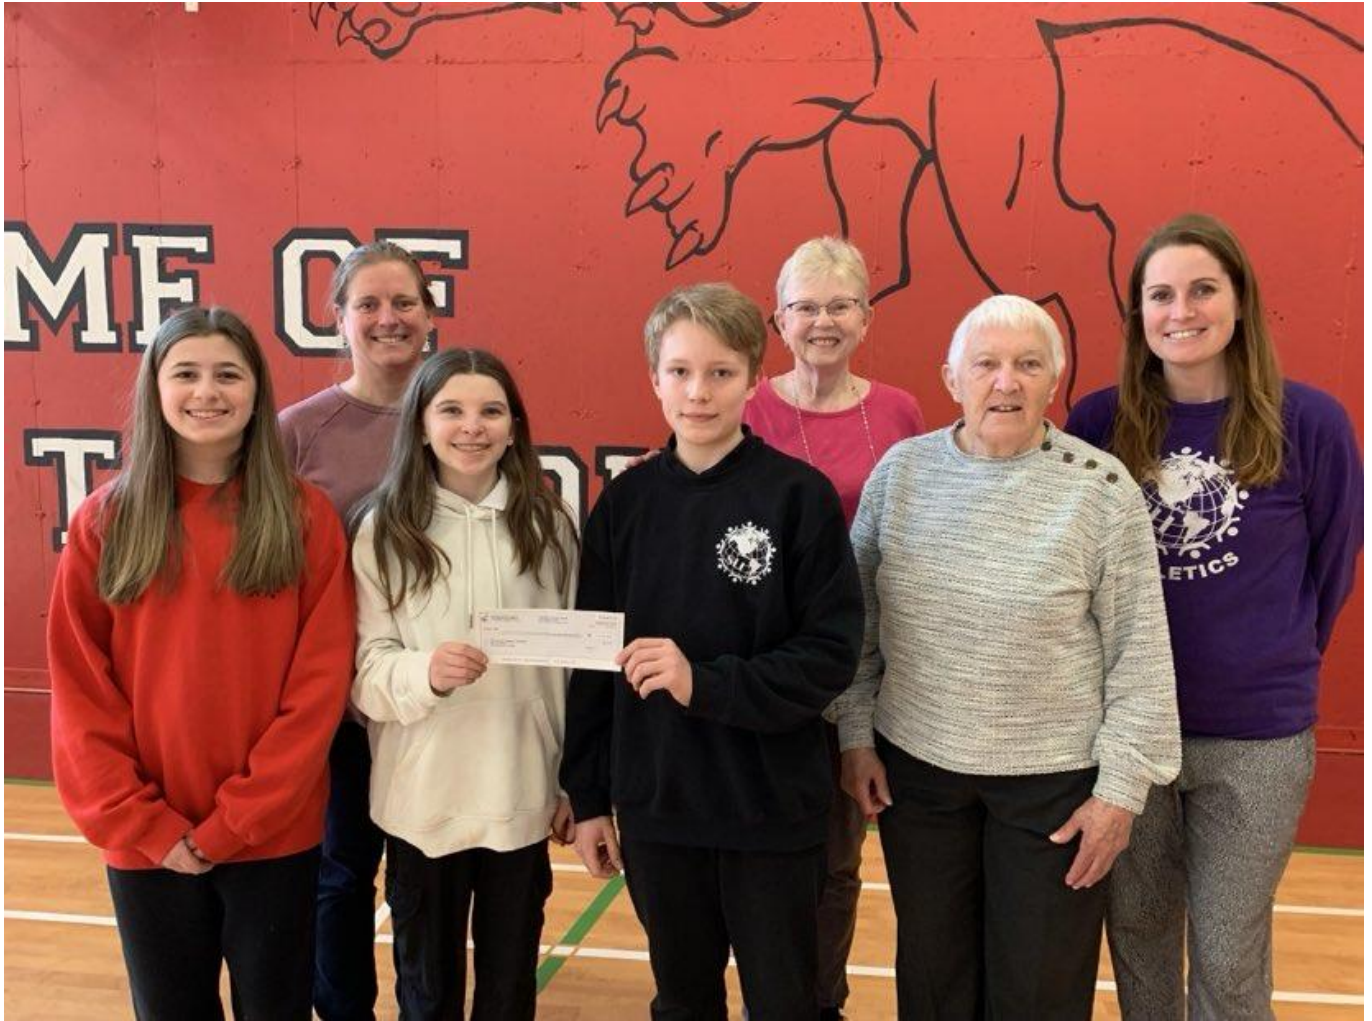

A heart felt thank you and congratulations go out to Saint Lambert International – the small school with a big heart! They are a shining example of what caring and true community service are!
